

JORDAN M. CARTER

(555) 867-5309 • jordan.carter@email.com • linkedin.com/in/jordancarter • github.com/jordancarter • Austin, TX

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with 8+ years of experience designing, developing, and deploying scalable full-stack applications. Proven track record of reducing infrastructure costs by up to 40% and improving system performance through strategic architectural decisions. Adept at leading cross-functional teams, mentoring junior engineers, and delivering complex projects on time. Expertise in cloud-native development, microservices, and agile methodologies.

CORE COMPETENCIES

Full-Stack Development • Cloud Architecture (AWS, GCP) • Microservices & REST APIs • CI/CD Pipelines • Agile / Scrum
Team Leadership & Mentoring • System Design • Database Optimization • DevOps • Technical Documentation

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Nexlify Technologies | Austin, TX • Mar 2021 – Present

- Architected and led development of a microservices platform serving 2M+ daily active users, reducing latency by 35% and cutting AWS infrastructure costs by \$180K annually.
- Spearheaded migration from monolithic Rails application to Node.js/React microservices, improving deployment frequency from bi-weekly to daily releases.
- Mentored a team of 6 junior and mid-level engineers through weekly code reviews, pair programming sessions, and individualized growth plans.
- Designed and implemented automated CI/CD pipeline using GitHub Actions and Docker, reducing deployment time by 60% and eliminating manual release errors.
- Collaborated with product and UX teams to define technical requirements and deliver 12 major feature releases ahead of schedule.

Software Engineer | DataStream Inc. | San Francisco, CA • Jun 2018 – Feb 2021

- Built real-time data ingestion pipeline processing 500K+ events per day using Apache Kafka and PostgreSQL, improving data freshness by 80%.
- Developed RESTful APIs consumed by 3 internal teams and 2 external partners, with 99.9% uptime across 18 months of production.
- Optimized critical database queries, achieving a 45% reduction in average query execution time and improving dashboard load performance.
- Contributed to open-source internal tooling library adopted across 4 product teams, reducing boilerplate code by an estimated 30%.

Junior Software Developer | BrightPath Solutions | Denver, CO • Aug 2016 – May 2018

- Developed and maintained features across a customer-facing e-commerce platform using React and Django, supporting \$12M in annual revenue.
- Wrote comprehensive unit and integration tests, increasing test coverage from 42% to 87% and reducing production bug rate by 50%.
- Participated in daily standups, sprint planning, and retrospectives as a core member of a 10-person agile team.

EDUCATION

Bachelor of Science in Computer Science — University of Texas at Austin

Graduated: May 2016 • GPA: 3.8 / 4.0 • Dean's List (4 semesters)

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Frameworks & Libraries: React, Node.js, Express, Django, Next.js, GraphQL

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS), GCP, Docker, Kubernetes, Terraform, GitHub Actions

Databases: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

Tools & Practices: Git, Jira, Figma, Agile/Scrum, TDD, REST, Microservices, CI/CD

CERTIFICATIONS

AWS Certified Solutions Architect – Associate | Amazon Web Services | 2023

Google Professional Cloud Developer | Google Cloud | 2022
